

ZMDSM

DIGITAL SIGNAGE

MADE EASY!!!

ZM Media is your source for Dynamic Digital Signage (DDS) solutions. We offer a simple, turnkey system that can deliver targeted messaging in a wide array of applications, including Banking, Retail, Restaurants, Grocery, C-Stores and many more. Interior DDS is a logical complement to static and outdoor signage, but doesn't need to be complicated. We have done the research and bundled cloud based software, screens, robust media players, cables and all the mounting hardware needed to quickly and easily get your system up and running.

Cloud Based Software

3 Year Warranty on All Components

Ready to Install

Manage Both LED Signs and Dynamic Digital Signage

Use the Dynamic Digital Cloud Based Software to Control Your Outdoor LED Displays and Indoor Dynamic Signage from One Platform

All in One Box

Great looking hardware, a powerful & dependable cloud based network, and the ability to request professional content targeted for your viewing audience through SM Infinity™ cloudware

Pay one price for all the hardware, complete with screen, player, cables and mounts...or choose just the player, cables and player mounts if you already have your own screen. Then you only have an annual fee for the network software access. It's that simple!

WHAT IS SM INFINITY?

SM Infinity allows you to easily control all of your digital signage from any platform, anytime, anywhere. It is a cloud based software solution that gives you complete control whether you have one or hundreds of displays spread across the world. With our simple digital signage solution you can easily make changes on any device connected to the internet: PC, Mac or iPad (free iPad app available in the Apple App Store).

CUSTOM CONTENT CREATION

Never worry about designing great content...SM Infinity has you covered! We realize that most business owners are not graphic designers, but do have great ideas about how to market their business. The SM Infinity design team can bring those ideas to life on your digital display. After submitting a content request through the simple graphic request system, they provide professionally designed tailored content (typically within 24-48 hours) in your queue for review or approval. Their goal is to enhance your image and increase traffic. Better Content means More Business...all for one low price per month.
